- Configured to hold 1,200 storage containers
- Three story, temperature-controlled art storage system allowing ease of access and lower handling costs
- Designated iLive Inventory receiving, staging, and processing area is always staffed with three art handlers
- Private meeting facilities are available for guests as well as a coffee and dining area

Security

- Cadogan Tate LA’s storage facilities are protected by UL Certified Central Monitoring Station with Armed Guard and Police Response
- The perimeter is fully protected, including all entry doors and windows
- The receiving and parking areas are secured by an exterior perimeter and gate monitored by CCTV
- The remotely accessible HD CCTV Surveillance system is stationed throughout the warehouse interior, as well as covering the exterior perimeter areas
- Access control systems to monitor staff and visitors
- Visitors do not have access to storage areas unless accompanied by Cadogan Tate personnel. Private viewing rooms do not require supervision

Temperature-Controlled Art Storage

- All buildings are Wi-Fi temperature and humidity sensed. Hourly reports are monitored to ensure a maintained, controlled environment
- The facility is configured to offer over 20,000 square feet of art storage rooms and viewing spaces, all are air conditioned and temperature controlled, as well as 21,000 sq ft of high bay art and design storage spaces. 40,000 square feet of the facility are maintained at ambient temperature
- A fully indexed art storage location system is in operation, ensuring swift access to stored collections or single items. All maintained within our temperature-controlled art vaults

Fire Protection

- All buildings meet approved fire system standards by UL and are Wi-Fi sensed and monitored
- The entire space is protected and monitored by a central fire monitoring station linked to the LAFD
