Environmental Policy

As part of our system scope covering environmentally friendly removals, packing materials and storage we are totally committed to continual improvement in our environmental performance, paying special attention to the following issues

1. Effective management of our emissions to air, water and land, seeking their elimination, re-use or reduction where practicable.
2. Segregation and/or re-use, wherever practicable, of all materials suitable for recycling.
3. Compliance with relevant legislation and other requirements covering any of our operations.
4. Prevention of pollution by our processes and operations.
5. Efficient use of energy
6. Minimisation of our consumption of natural resources
7. Effective management and minimisation of our waste streams

We are committed to working in accordance with and maintaining the environmental management systems standard, ISO 14001: 2004.

Our Overall objectives are

- Contribute to combating deforestation and offset CO2 emissions. We use a company to deliver fruit who plant 1 fruit tree for every basket/ box we have delivered.
- Improvement in CO2 efficiency over our current base by end 2025
- Improvement of operational solutions (eg, repurpose materials and minimise wastage) by end 2025
- Develop “Net-Zero” people targets, leverage the power and connections of our workforce by end 2025 .
